

Telluride Tonneau

Installation Instructions

No Drilling in Truck Bed Required

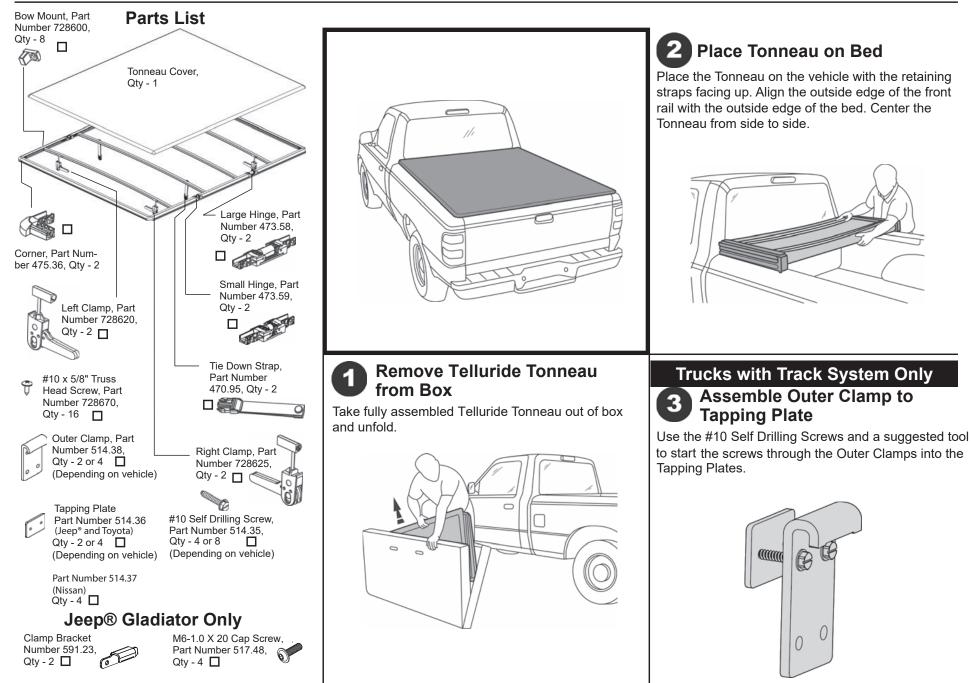

We're here to help! Visit our web site: www.Softopper.com

WARNING The buckle of each retaining strap and both clamps must be fastened securely to avoid damage to personal property or possible personal injury.

If the vehicle has an Over-the-Rail Bedliner, use a certified installer to perform the initial installation. Modifications to the Bedliner may be required.

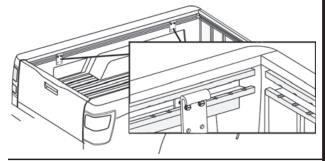

Trucks with Track System Only

Position Outer Clamp Assemblies

Remove the track end caps. Slide two (2) of the Outer Clamp Assemblies into the track on each side. Place them approximately 10" from the front and rear ends of the track system. Replace the end caps.

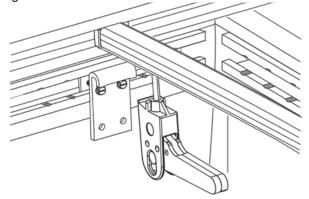

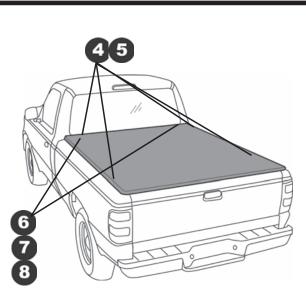

Trucks with Track System Only

Secure Outer Clamps

Align the Outer Clamp with the tonneau latches and make sure that they are centered with each other. Tighten the screws.

Release Front Clamp

counter-clockwise to tighten.

On the driver's side, reach under the Tonneau and

Push the top saddle part of the clamp down and

rotate the front clamp down from the storage position.

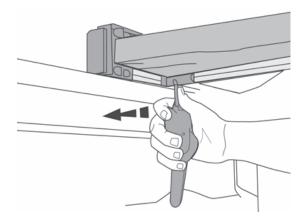

adjust the clamp by rotating it clockwise to loosen or

Saddle

6

7 Position Front Clamp

Slide the clamp to the end of the bow. Position the notched section of the saddle under the inner lip of the truck bed.

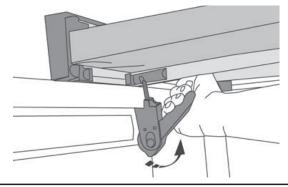

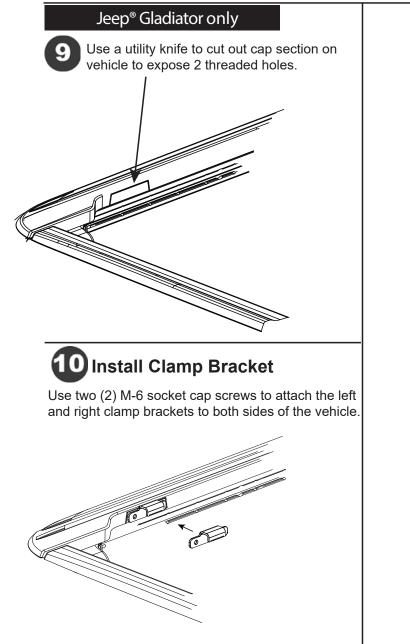

Secure Front Clamp

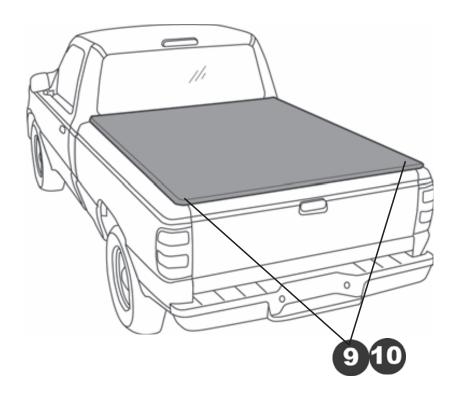

Pull the handle up to secure the clamp. Repeat Steps 6 - 8 on the passenger side.

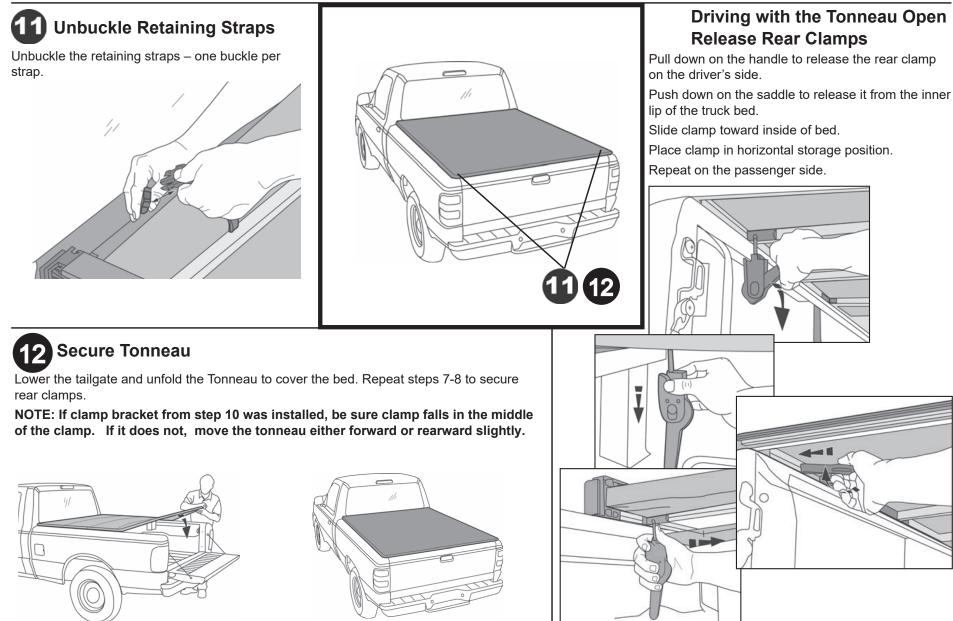

NOTE

Make sure clamps are secure before operating vehicle.

Care and Maintenance of your SOFTOPPER Product

Your Softopper product is made of the finest materials available. To keep it looking new and for the maximum possible wear, it will need periodic cleaning and maintenance.

Washing: The fabric should be washed often using mild soap, warm water and a soft bristle brush. Rinse with clear water to remove all traces of soap.

Water: Seeping through at the seams may be stopped by applying 3-M Scotchgard® on the inside of the seams. Rips in the fabric may be repaired with Bondex® iron on patches. Iron the patches to the Inside of the top, carefully following the Bondex® instructions.

Snaps: Keep snaps cleaned and lubricated to help prevent snaps from sticking to the studs. If a snap does become stuck to a stud, use a screwdriver and GENTLY pry apart to prevent permanent damage to the snap or the fabric.
